Apprenticeship Sustainability Training

Are you passionate about making a difference in the world?

Do you want to learn more about how you can help create a more sustainable future for everyone?

Then our Apprenticeship Sustainability Training is the perfect place to start!

This training is designed to provide you with an introduction to the key concepts and principles of sustainability, as well as practical tools and strategies for applying these concepts in your daily life.

From reducing your carbon footprint to making more ethical consumer choices, this training enables you to start making a positive impact on the world around you.

By the end of the day, you will be aware of current and predicted impacts of climate change, be able to identify some possible solutions to maintain environmental sustainability, be able to link sustainability to your own apprenticeship and identify possible sustainable actions in the workplace and in your personal life.

**Includes a free
sustainable lunch!**

**Friday 28th July
Lancaster & Morecambe College
9.30am-3pm**

How to book:

Please contact Employer Engagement on:

01524 521483

or

employerengagement@lmc.ac.uk

This training session is made possible by LEAP. LEAP is part-funded by the European Social Fund.

Alternatively, contact your advisor to book your place on the training.
