Carbon Reduction & Sustainable Planning Training

Lancaster & Morecambe College is offering a fully funded service to provide you all you need to understand about sustainability and helping your business to gain the following benefits:

- Reduce your use of energy, resources and production of waste to improve your environmental performance.
- A great way to provide evidence of your green credentials. Showcasing your environmentally friendly practices can allow you to build a reputation as a sustainable business.
- Save money through understanding your usage of energy, water, waste disposal and how your raw materials are sourced.

Getting environmental certification is a becoming increasingly sought after by both customers and employees, and is often needed for contracts and grant applications. This is a great opportunity to work with a specialist to understand the environmental impacts of your business.

Half day training courses in the Employer Hub @LMC

1. Carbon Footprints, Carbon Reduction Plans and Net Zero: A Practical Guide for your Business

- Carbon: what it is and why it matters
- Business carbon footprinting: a beginner's guide
- Carbon offsetting, carbon neutral, net zero: making sense of it all
- Carbon reduction: practical ideas
- Meeting carbon-related standards and requirements: Carbon Reduction Plans, Science-Based net zero targets and more

2. Environmental Certification for your Business: All You Need to Know

- Understanding the environmental impacts of business
- Environmental certification: Business benefits
- Which environmental certification is right for your business?
- Taking environmental action: Practical ideas

Funded Carbon Reduction Plans available

Following on from our half day course we have a small number of grants available to support businesses with producing a Carbon Reduction Plan.

The service would involve:

1. Scoping the business carbon footprint
2. Calculating the business carbon footprint (according to current UK Government procurement requirements)
3. Identifying priority carbon reduction actions
4. Drafting a Carbon Reduction Plan for the business in line with current UK Government requirements
