

# Electrical Training Courses

## Initial Verification & Periodic Inspection and Testing of Electrical Installations Combined Course C&G 2391-52

This 5-day course is for experienced electricians and is intended to improve skills and understanding of Initial Verification and Periodic Inspection and Testing of Electrical Installations. It will cover inspecting and testing of new and existing single and three-phase installation in line with the requirements of BS 7671 as well as the correct completion of certification and reporting.

- 4 day theory sessions: **9, 10, 16 and 17 February 2026 • 8.30am-4.30pm**
- Location: **The Employer Hub, LMC** Cost: **£950** per delegate (we do not charge VAT)
- Practical Exam: Scheduled during the programme

## 18th Edition Regulation Update Course C&G 2382-22

This 3-day course is essential for anyone who works with or is involved with electrical installations, especially those who work within the domestic and commercial markets. The IET Wiring Regulations 18th Edition: BS 7671:2018+A2:2022 form the new standard to which all new electrical installations, additions and alterations are to comply.

You can rest assured that the contents will include everything outlined in the new edition and will meet the requirements for the new City & Guilds syllabus and examination.

- 3 day course: **1, 8 and 15 May • 8.30am-4.30pm**  
**29 May, 5 and 12 June • 8.30am-4.30pm**
- Location: **The Employer Hub, LMC** Cost: **£400** per delegate (we do not charge VAT)

## Domestic, Commercial & Industrial Electric Vehicle Charging Equipment Installation C&G 2919-31 Level 3 Award

This qualification is aimed at practicing electricians interested in understanding how to install the range of equipment and systems available. It covers the specialised installation requirements of electric vehicle charging equipment in public, private and commercial locations, and includes exclusive guidance on electrical requirements. By the end of the course you will understand and be able to apply selection, installation and commissioning of electric vehicle charging equipment in domestic, commercial and industrial locations.

- 2 day course: **Coming soon • Funding available**
