College

Sustainable Training for Business

Environmental awareness and ensuring the sustainability of the planet has never been more important, and people and business play a critical role in ensuring this. Lancaster & Morecambe College's fully funded courses can help you to develop your business or your own knowledge, to increase your customer base or your own employment opportunities. All courses give the chance to gain a nationally accredited qualification on completion of a workbook

Sustainable Practices in the Workplace Level 1 Award

This 1-day Level 1 award will be of interest to a wide range of businesses looking to gain knowledge of sustainable practices.

You will:

- Learn about the environmental impacts generated by business and how to respond to them
- Understand what climate change is and why reducing carbon emissions from business is so important
- Explore your own role and what you can do

Sustainable Practices for Managing Business Responses to Environmental Challenges Level 2 Award

This 2-day Level 2 award will be of interest to supervisors and managers from a wide range of industries and businesses.

You will:

- Be able to describe the key environmental impact of business
- Learn about the challenges and benefits to business of taking account of environmental impact
- Understand some key principles to develop an effective approach for your own business
- Learn about environmental standards and accreditations available to benefit business
