Electrical Training Courses

Initial Verification & Periodic Inspection and Testing of Electrical Installations Combined Course C&G 2391-52

This 5-day course is for experienced electricians and is intended to improve skills and understanding of Initial Verification and Periodic Inspection and Testing of Electrical Installations. It will cover inspecting and testing of new and existing single and three-phase installation in line with the requirements of BS 7671 as well as the correct completion of certification and reporting.

- 4 day theory sessions: **18, 19, 26 February and 5 March 2027• 8.30am-4.30pm**
- Location: **The Employer Hub, LMC**
- Cost: **£950** per delegate (we do not charge VAT)
- Practical Exam: Scheduled during the programme

18th Edition Regulation Update Course C&G 2382-26

This 3-day course is essential for anyone who works with or is involved with electrical installations, especially those who work within the domestic and commercial markets. The IET Wiring Regulations 18th Edition: BS 7671:2026 form the new standard to which all new electrical installations, additions and alterations are to comply.

You can rest assured that the contents will include everything outlined in the new edition and will meet the requirements for the new City & Guilds syllabus and examination.

- 3 day course: **27 Nov, 4 and 11 December • 8.30am-4.30pm**
- Location: **The Employer Hub, LMC**
- Cost: **£400** per delegate (we do not charge VAT)
